**EARTH-MOVING MACHINERY—
NOMENCLATURE**

Part 3—TRACTORS

(ISO Title: Earth-moving machinery—Tractors—
Terminology)

This Australian Standard was prepared by Committee ME/63, Earthmoving Equipment. It was approved on behalf of the Council of the Standards Association of Australia on 3 March 1988 and published on 17 June 1988.

The following interests are represented on Committee ME/63:

Australian Mining Industry Council
Bureau of Steel Manufacturers of Australia
Construction Equipment Importers and Manufacturers of Australia
Department of Administrative Services
Department of Conservation, Forests and Lands, Vic.
Department of Defence
Department of Forestry, Qld.
Department of Industrial Relations and Employment, N.S.W.
Department of Labour, Vic.
Department of Mines, Qld.
Earth-movers and Road Contractors Association of Australia
Forestry Commission of New South Wales
Local Government Engineers Association of New South Wales
Metal Trades Industry Association of Australia
National Association of Australian State Road Authorities
Rural Water Commission, Vic.
Safety Institute of Australia
Telecom Australia
Tractor and Machinery Association of Australia
Water Board, Sydney

Review of Australian Standards. To keep abreast of progress in industry, Australian Standards are subject to periodic revision and are kept up to date by the issue of amendments or new editions as necessary. It is important therefore that Standards users ensure that they are in possession of the latest edition, and any amendments thereto.

All details of all Australian Standards and related publications will be found in the Standards Australia Catalogue of Publications; this information is supplemented each month by the magazine 'The Australian Standard', which subscribing members receive, and which gives details of new publications, new editions and amendments, and of withdrawn Standards.

Suggestions for improvements to Australian Standards, addressed to the head office of Standards Australia, are welcomed. Notification of any inaccuracy or ambiguity found in an Australian Standard should be made without delay in order that the matter may be investigated and appropriate action taken.

This Standard was issued in draft form for comment as DR 85168.

AS 2951.3—1988/ISO 6747—1982

FOREWORD

1. This Australian Standard corresponds with ISO 6747—1982, *Earth-moving machinery—Tractors—Terminology*.
2. Introduction to and complete listing of the SAA series of earth-moving machinery Standards (AS 2951 to AS 2958), is available on request.
3. Error.
Clause 3. Title of ISO 3450 incorrect. Should read: '*Earth-moving machinery — Wheeled machines — Performance requirements and test procedures for braking systems*'.
4. For the purpose of this Australian Standard the words 'International Standard' should be replaced by 'Australian Standard'.
5. ISO Standards referred to in this Standard correspond with the following Australian Standards:

ISO Standard	Australian Standard
ISO 6747-0	AS 2958.1
ISO 6747-6	AS 2951.1
ISO 6746-1	AS 2951.2.1
ISO 6746-2	AS 2951.2.2

© Copyright — STANDARDS AUSTRALIA

Users of Standards are reminded that copyright subsists in all Standards Australia publications and software. Except where the Copyright Act allows and except where provided for below no publications or software produced by Standards Australia may be reproduced, stored in a retrieval system in any form or transmitted by any means without prior permission in writing from Standards Australia. Permission may be conditional on an appropriate royalty payment. Requests for permission and information on commercial software royalties should be directed to the head office of Standards Australia.

Standards Australia will permit up to 10 percent of the technical content pages of a Standard to be copied for use exclusively in-house by purchasers of the Standard without payment of a royalty or advice to Standards Australia.

Standards Australia will also permit the inclusion of its copyright material in computer software programs for no royalty payment provided such programs are used exclusively in-house by the creators of the programs.

Care should be taken to ensure that material used is from the current edition of the Standard and that it is updated whenever the Standard is amended or revised. The number and date of the Standard should therefore be clearly identified.

The use of material in print form or in computer software programs to be used commercially, with or without payment, or in commercial contracts is subject to the payment of a royalty. This policy may be varied by Standards Australia at any time.

Earth-moving machinery—Nomenclature

Part 3—Tractors

1 Scope

This International Standard establishes terminology and commercial literature specifications for self-propelled crawler and wheel tractors and their equipment.

2 Field of application

This International Standard applies to tractors of earth-moving machinery as defined in ISO 6165.

3 References

ISO 3450, *Earth-moving machinery — Minimum performance criteria for brake systems*.

ISO 6165, *Earth-moving machinery — Basic types — Vocabulary*.

ISO 6746/1, *Earth-moving machinery — Dimensions of dimensions and symbols — Part 1, Base machine*.

ISO 6746/2, *Earth-moving machinery — Definitions of dimensions and symbols — Part 2, Equipment*.

4 Definitions

4.1 tractor: Self-propelled crawler or wheeled machine used to exert a push or pull force through a mounted attachment or drawbar.

4.2 base machine: A tractor, without equipment, as described by the manufacturer specifications. The machine should be provided with the necessary mountings to secure equipment as shown in clause 6.

5 Basic model

5.1 Type of tractors

5.1.1 Undercarriage

5.1.1.1 Crawler tractor (see figure 1).

5.1.1.2 Wheel tractor (see figures 2 to 5).

5.1.2 Engine location

5.1.2.1 Front engine (see figures 1 and 3).

5.1.2.2 Rear engine (see figures 2, 4 and 5).

5.1.3 Number of drive axles (drive wheels)

5.1.3.1 Rear axle (rear wheels) drive (see figure 3).

5.1.3.2 Both axles (all wheels) drive (see figures 2, 4 and 5).

5.1.4 Steering system

5.1.4.1 Front wheel steer (see figure 3).

5.1.4.2 Rear wheel steer (see figure 2).

5.1.4.3 Articulated steering (see figures 4 and 5).

5.1.4.4 Crawler — skid steer.

5.1.5 Operator's position (concerns articulated machines)

5.1.5.1 Operator front (see figure 4).

5.1.5.2 Operator rear (see figure 5).
