**Next Generation Interconnection Interoperability (NGIIF)
Reference Document**

Part V, Test Line Guidelines

Version 13.0

As a leading technology and solutions development organization, the Alliance for Telecommunications Industry Solutions (ATIS) brings together the top global ICT companies to advance the industry's most pressing business priorities. ATIS' nearly 200 member companies are currently working to address the All-IP transition, 5G, network functions virtualization, big data analytics, cloud services, device solutions, emergency services, M2M, cyber security, network evolution, quality of service, billing support, operations, and much more. These priorities follow a fast-track development lifecycle — from design and innovation through standards, specifications, requirements, business use cases, software toolkits, open source solutions, and interoperability testing.

ATIS is accredited by the American National Standards Institute (ANSI). The organization is the North American Organizational Partner for the 3rd Generation Partnership Project (3GPP), a founding Partner of the Open Mobile Alliance (OMA), a member of the International Telecommunication Union (ITU), as well as a member of the Inter-American Telecommunication Commission (CITEL). Notice

This document was developed by the Alliance for Telecommunications Industry Solutions' (ATIS) sponsored Next Generation Interconnection Interoperability Forum (NGIIF). The NGIIF addresses next-generation network interconnection and interoperability issues associated with emerging technologies. Specifically, it develops operational procedures which involve the network aspects of architecture, disaster preparedness, installation, maintenance, management, reliability, routing, security, and testing between network operators. In addition, the NGIIF addresses issues which impact the interconnection of existing and next generation networks and facilitate the transition to emerging technologies. All changes to this document shall be made through the NGIIF issue resolution process.

Note Regarding Previous Versions

The NIIF Reference Document was formerly known as the Network Operations Forum (NOF) Reference Document. The NOF Reference Document was published and maintained by Bellcore. The last version of the NOF Reference Document is Issue 13.

Disclaimer and Limitation of Liability

The information provided in this document is directed solely to professionals who have the appropriate degree of experience to understand and interpret its contents in accordance with generally accepted engineering or other professional standards and applicable regulations. No recommendation as to products or vendors is made or should be implied.

NO REPRESENTATION OR WARRANTY IS MADE THAT THE INFORMATION IS TECHNICALLY ACCURATE OR SUFFICIENT OR CONFORMS TO ANY STATUTE, GOVERNMENTAL RULE OR REGULATION, AND FURTHER NO REPRESENTATION OR WARRANTY IS MADE OF MERCHANTABILITY OR FITNESS FOR ANY PARTICULAR PURPOSE OR AGAINST INFRINGEMENT OF INTELLECTUAL PROPERTY RIGHTS. ATIS SHALL NOT BE LIABLE, BEYOND THE AMOUNT OF ANY SUM RECEIVED IN PAYMENT BY ATIS FOR THIS DOCUMENT, WITH RESPECT TO ANY CLAIM, AND IN NO EVENT SHALL ATIS BE LIABLE FOR LOST PROFITS OR OTHER INCIDENTAL OR CONSEQUENTIAL DAMAGES. ATIS EXPRESSLY ADVISES THAT ANY AND ALL USE OF OR RELIANCE UPON THE INFORMATION PROVIDED IN THIS DOCUMENT IS AT THE RISK OF THE USER.

NOTE - The user's attention is called to the possibility that compliance with this standard may require use of an invention covered by patent rights. By publication of this standard, no position is taken with respect to whether use of an invention covered by patent rights will be required, and if any such use is required no position is taken regarding the validity of this claim or any patent rights in connection therewith. Please refer to <http://www.atis.org/legal/patent> to determine if any statement has been filed by a patent holder indicating a willingness to grant a license either without compensation or on reasonable and non-discriminatory terms and conditions to applicants desiring to obtain a license.

Table of Contents

1	General	1
2	Test Line Access.....	1
3	Lineside (Call-through/Routing Testing/Service Provider Verification)	3
3.1	Service Provider Verification	3
3.2	Call-Through/Routing Testing	3
4	Testing Through an Access Tandem	3
5	9YY NXX, NPA/NXX, Toll Free, and International Call-Through Testing.....	3
5.1	Testing NPA/NXX or NPA/NXX-X	3
5.1.1	New NPA/NXX.....	4
5.1.2	New NPA/NXX-X in Thousands Block Pooling Situations.....	4
5.1.3	NXXs Affected by NPA Relief Activity	4
5.2	Testing NPA/NXX	4
5.2.1	New NPA/NXX.....	4
5.2.2	NXXs Affected by NPA Relief Activity, Switch Change, Switch Homing Arrangements	4
5.2.3	Migration of NXX Code(s).....	4
5.2.4	Changing a Tandem Association with an End Office Switch.....	5
5.3	Testing Toll Free.....	5
5.4	Testing International Direct Distance Dialing (IDDD)	5
5.4.1	New IDDD Number Range	5
5.4.2	New IDDD Routing	5
6	Test Line Directory.....	6
7	Bibliography	6
