List of tables

Table 1 – Schedule of tests	5
Table 2 – Minimum clearances for basic insulation	10
Table 3 – Minimum creepage distances for basic insulation	11
Table 4 – Withstand test voltages for solid insulation types	12
Table 5 – Maximum and minimum withdrawal force for travel adaptors	21
Table 6 – Torque values for test of screws and nuts	31
Table 7 – Cross-sectional areas for copper conductors for temperature-rise test	36
Table A.1 – Rated impulse withstand voltage for accessories energized directly from the low voltage mains	50
Table C.1 – Test voltages for impulse withstand test	52
Table D.1 – Minimum values of width X	52

Summary of pages

This document comprises a front cover, an inside front cover, pages i to iv, pages 1 to 62, an inside back cover and a back cover.

Foreword

Publishing information

This British Standard is published by BSI Standards Limited, under licence from The British Standards Institution, and came into effect on 30 April 2016. It was prepared by Panel PEL/23/-13, *Travel adaptors*, under the authority of Technical Committee PEL/23, *Electrical accessories*. A list of organizations represented on this committee can be obtained on request to its secretary.

Presentational conventions

The provisions of this standard are presented in roman (i.e. upright) type. Its requirements are expressed in sentences in which the principal auxiliary verb is "shall".

Commentary, explanation and general informative material is presented in smaller italic type, and does not constitute a normative element.

Contractual and legal considerations

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.

Compliance with a British Standard cannot confer immunity from legal obligations.

1 Scope

This British Standard specifies requirements for the construction, rating, marking, dimensions and testing of travel adaptors intended for the temporary connection of electrical equipment. It applies to travel adaptors having at least one plug or socket-outlet portion compatible with BS 1363 plugs and socket-outlets, which are suitable for the connection of a non-BS 1363 plug, or to a non-BS 1363 socket-outlet.

Travel adaptors incorporating USB circuits for charging devices are also covered by this standard.

This British Standard applies to travel adaptors intended for use in household, commercial and light industrial premises where:

- the nominal supply voltage does not exceed 250 V a.c. single-phase, 50 Hz to 60 Hz; or
- the rated current of the travel adaptor does not exceed 10 A and is not less than 5 A.

Travel adaptors within the scope of this British Standard do not convert voltage.

This British Standard excludes adaptors conforming to BS 1363-3 and conversion plugs conforming to BS 1363-5.

2 Normative references

The following documents, in whole or in part, are normatively referenced in this document and are indispensable for its application. For dated references, only the edition cited applies. For undated references, the latest edition of the referenced document (including any amendments) applies.

BS 1362, *Specification for general purpose fuse links for domestic and similar purposes (primarily for use in plugs)*

BS 1363-1:1995+A4:2012¹⁾, *13 A plugs, socket-outlets, adaptors and connection units – Part 1: Specification for rewirable and non-rewirable 13 A fused plugs*

BS 1363-2:1995+A4:2012¹⁾, *13 A plugs, socket-outlets, adaptors and connection units – Part 2: Specification for 13 A switched and unswitched socket-outlets*

BS 1363-3:2011, *13 A plugs, socket-outlets, adaptors and connection units – Part 3: Specification for adaptors*

BS 1363-4:2011, *13 A plugs, socket-outlets, adaptors and connection units – Part 4: Specification for 13 A fused connection units switched and unswitched*

BS 1363-5:2011, *13 A plugs, socket-outlets, adaptors and connection units – Part 5: Specification for fused conversion plugs*

BS 1858, *Electric cables – Accessories – Bitumen-based filling compounds*

BS 2572, *Specification for phenolic laminated sheet and epoxy cotton fabric laminated sheet*

BS 4662:2006+A1:2009, *Boxes for flush mounting of electrical accessories – Requirements, test methods and dimensions*

BS 4800, *Schedule of paint colours for building purposes*

BS 5733, *General requirements for electrical accessories – Specification*²⁾

¹⁾ A new edition of BS 1363 (all parts) is due to be published in 2016.

²⁾ Informative reference is made to BS 5733:2010+A1:2014.
