National foreword

The UK participation in its preparation was entrusted to Technical Committee GEL/3, Documentation and graphical symbols.

This Published Document PD 60417 Snapshot:2013 provides an extract of IEC 60417 Electrotechnical Graphical Symbols for use with Equipment, which is maintained by IEC as an online database: <http://www.graphical-symbols.info/>

IEC 60417 is not available from IEC in document form. Access to the database is chargeable on a subscription basis.

PD 60417 Snapshot:2013, therefore, does not have the status of an international standard. It is a listing of graphical symbols contained within IEC 60417 taken at a particular point in time. Users should be aware that this PD is not likely to reflect the current state of the database beyond its initial date of publication. In the case of deviation between this text and the database, the online database must always take precedence.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
