

CGA G-18—2019

**METHODS FOR ACOUSTIC
EMISSION REQUALIFICATION OF
SEAMLESS STEEL
COMPRESSED GAS TUBES**

FOURTH EDITION

CGA

Compressed Gas Association

The Standard For Safety Since 1913

PLEASE NOTE:

The information contained in this document was obtained from sources believed to be reliable and is based on technical information and experience currently available from members of the Compressed Gas Association, Inc. and others. However, the Association or its members, jointly or severally, make no guarantee of the results and assume no liability or responsibility in connection with the information or suggestions herein contained. Moreover, it should not be assumed that every acceptable commodity grade, test or safety procedure or method, precaution, equipment or device is contained within, or that abnormal or unusual circumstances may not warrant or suggest further requirements or additional procedure.

This document is subject to periodic review, and users are cautioned to obtain the latest edition. The Association invites comments and suggestions for consideration. In connection with such review, any such comments or suggestions will be fully reviewed by the Association after giving the party, upon request, a reasonable opportunity to be heard. Proposed changes may be submitted via the Internet at our website, www.cganet.com.

This document should not be confused with federal, state, provincial, or municipal specifications or regulations; insurance requirements; or national safety codes. While the Association recommends reference to one of this document by government agencies and others, this document is purely voluntary and not binding unless adopted by reference in regulations.

A listing of all publications, audiovisual programs, safety and technical bulletins, and safety posters is available via the Internet at our website at www.cganet.com. For more information contact CGA at telephone: 703-788-2700, ext. 799. E-mail: customerservice@cganet.com.

Work Item 17-022
Cylinder Specifications Committee

NOTE—Technical changes from the previous edition are underlined.

NOTE—Appendices A and C (Normative) are requirements.

NOTE—Appendix B (Informative) is for information only.

FOURTH EDITION: 2019
REAFFIRMED: 2012
THIRD EDITION: 2005
SECOND EDITION: 2002

Contents	Page
1 Introduction.....	1
2 Scope	1
3 Definitions.....	1
4 Safety considerations	3
5 Flaws in gas tubes.....	3
6 Operator qualifications	6
7 Operational description	6
8 Special considerations to obtain valid test	6
9 Equipment and material	7
10 Calibration and standardization.....	8
11 Acoustic emission test procedure.....	8
12 Documentation and report.....	9
13 Acoustic emission equipment parameters.....	10
14 Follow-up ultrasonic examination	10
15 Rejection criteria.....	10
16 References	11
17 Additional references.....	11
 Figures	
Figure 1—Flaw in DOT-3AA tube	4
Figure 2—Lap in outside surface of DOT-3T tube (100x magnification).....	4
Figure 3—Severe flaw in DOT-3T tube (100x magnification)	5
Figure 4—Fatigue crack in DOT-3AA tube sidewall (100x magnification)	5
Figure 5—Acoustic emission requalification of seamless steel tubes	7
 Appendices	
Appendix A—Listing of known current special permits and equivalency certificates authorizing AE requalification in lieu of hydrostatic testing (Informative)	12
Appendix B—Fracture toughness (Informative).....	13
Appendix C—Instrumentation specifications (Normative).....	14
