PLEASE NOTE:

The information contained in this document was obtained from sources believed to be reliable and is based on technical information and experience currently available from members of the Compressed Gas Association, Inc. and others. However, the Association or its members, jointly or severally, make no guarantee of the results and assume no liability or responsibility in connection with the information or suggestions herein contained. Moreover, it should not be assumed that every acceptable commodity grade, test or safety procedure or method, precaution, equipment or device is contained within, or that abnormal or unusual circumstances may not warrant or suggest further requirements or additional procedure.

This document is subject to periodic review, and users are cautioned to obtain the latest edition. The Association invites comments and suggestions for consideration. In connection with such review, any such comments or suggestions will be fully reviewed by the Association after giving the party, upon request, a reasonable opportunity to be heard. Proposed changes may be submitted via the Internet at our website, www.cganet.com.

This document should not be confused with federal, state, provincial, or municipal specifications or regulations; insurance requirements; or national safety codes. While the Association recommends reference to or use of this document by government agencies and others, this document is purely voluntary and not binding unless adopted by reference in regulations.

A listing of all publications, audiovisual programs, safety and technical bulletins, and safety posters is available via the Internet at our website at www.cganet.com. For more information contact CGA. Phone: 703-788-2700, ext. 799. E-mail: customerservice@cganet.com.

Work Item 17-020
Medical Gases Committee

NOTE—Technical changes from the previous edition are underlined.

NOTE—Appendix A (Informative) is for information only.

1 Introduction.....	1
2 Scope	1
3 Definitions.....	2
4 Health and safety considerations	6
5 Key laws, regulations, and guidelines	6
5.1 Federal.....	6
5.2 State/local.....	8
6 Standard operating procedures.....	8
7 Organization and Personnel (21 CFR Part 211 Subpart B)	9
7.1 Quality control unit (21 CFR Part 211.22)	9
7.2 Personnel qualifications (21 CFR Part 211.25)	9
7.3 Personnel responsibilities (21 CFR Part 211.28)	10
7.4 Consultants (21 CFR Part 211.34).....	10
8 Buildings and Facilities (21 CFR Part 211 Subpart C)	10
8.1 General.....	10
8.2 Design and construction features (21 CFR Part 211.42).....	11
8.3 Lighting (21 CFR Part 211.44)	11
8.4 Building maintenance (21 CFR Part 211.58).....	11
8.5 Security.....	11
9 Equipment (21 CFR Part 211 Subpart D).....	12
9.1 Equipment design, size, location (21 CFR Part 211.63).....	12
9.2 Equipment construction (21 CFR Part 211.65).....	12
9.3 CMG filling systems.....	12
9.4 Product storage	12
9.5 Product filling equipment.....	13
9.6 Manifold control systems.....	15
9.7 Equipment cleaning and maintenance (21 CFR Part 211.67).....	16
9.8 Automatic, mechanical, and electronic equipment (21 CFR Part 211.68).....	17
9.9 Filters (21 CFR Part 211.72).....	18
10 Control of Components and drug product containers and closures (21 CFR Part 211 Subpart E).....	18
10.1 General requirements (21 CFR Part 211.80).....	18
10.2 Receipt and storage of tested components drug product containers, and closures (21 CFR Part 211.81).....	18
10.3 Testing and approval or rejection of components, drug product containers, and closures (21 CFR Part 211.82).....	18
10.4 Use of approved components, drug product containers, and closures (21 CFR Part 211.86).....	18
10.5 Retesting of approved components, drug product containers and closures (21 CFR Part 211.87).....	19
10.6 Rejected components, drug product containers, and closures (21 CFR Part 211.89).....	19
10.7 Drug product containers and closures (21 CFR Part 211.94).....	19
10.8 Control of medical supply gases.....	19
10.9 Control of medical gas containers, valves, and other appurtenances.....	21
11 Production and process controls (21 CFR Part 211 Subpart F).....	24
11.1 General information.....	24
11.2 Written procedures; deviations (21 CFR Part 211.100).....	24
11.3 Charge-in of components (21 CFR Part 211.101).....	24
11.4 Calculation of yield (21 CFR Part 211.103).....	25
11.5 Equipment identification (21 CFR Part 211.105).....	25
11.6 Sampling and testing in-process materials and drug products (21 CFR Part 211.110).....	25
11.7 Time limitations on production, Control of microbiological contamination, and Reprocessing (21 CFR Part 211.111, 211.113, and 211.115).....	25

12	Packaging and Label Controls (21 CFR Part 211 Subpart G).....	25
12.1	General.....	25
12.2	Labeling requirements.....	25
12.3	Materials examination and usage control (21 CFR Part 211.122).....	26
12.4	Labeling issuance (21 CFR Part 211.125).....	26
12.5	Packaging and labeling operations (21 CFR Part 211.130).....	27
12.6	Tamper evident (21 CFR Part 211.132).....	27
12.7	Drug product inspection (21 CFR Part 211.134).....	27
12.8	Expiration dating (21 CFR Part 211.137).....	27
13	Holding and distribution (21 CFR Part 211 Subpart H).....	27
13.1	Warehousing procedures (21 CFR Part 211.142).....	27
13.2	Distribution procedures (21 CFR Part 211.150).....	28
14	Laboratory Controls (21 CFR Part 211 Subpart I).....	28
14.1	General requirements (21 CFR Part 211.160).....	28
14.2	Specifications.....	29
14.3	Sampling plans.....	29
14.4	Testing.....	29
14.5	Calibration of testing equipment.....	30
14.6	Calibration gas standards.....	31
14.7	Certificate of calibration—Gas calibration standards.....	31
14.8	Testing and release for distribution (21 CFR Part 211.165).....	32
14.9	Stability testing (21 CFR Part 211.166).....	32
14.10	Special testing requirements, Reserve samples, Laboratory animals, and Penicillin contamination (21 CFR Part 211.167, 211.170, 211.173, 211.176).....	32
15	Records and Reports (21 CFR Part 211 Subpart J).....	32
15.1	General requirements (21 CFR Part 211.180).....	32
15.2	Equipment cleaning and use log (21 CFR Part 211.182).....	33
15.3	Component, drug product container, closure and labeling records (21 CFR Part 211.184).....	34
15.4	Master production and control records (21 CFR Part 211.186).....	35
15.5	Batch production and control records (21 CFR Part 211.188).....	35
15.6	Production record review (21 CFR Part 211.192).....	35
15.7	Laboratory records (21 CFR Part 211.194).....	36
15.8	Distribution records (21 CFR Part 211.196).....	36
15.9	Complaint files/procedures (21 CFR Part 211.198).....	37
16	Returned and Salvaged Drug Products (21 CFR Part 211 Subpart K).....	37
16.1	Returned drug products (21 CFR Part 211.204).....	37
16.2	Drug product salvaging (21 CFR Part 211.208).....	37

18	Additional references.....	39
Appendix		
	Appendix A—Typical high pressure oxygen fill record (Informative).....	40

1 Introduction

This publication is a standard for compliance with the applicable regulations of the U.S. Food and Drug Administration (FDA) for the manufacture of compressed medical gases (CMG) classified as drugs as described in Title 21 of the U.S. Code of Federal Regulations (21 CFR) [1].¹ It outlines the requirements for manufacturing CMGs classified as drugs; however it may not contain all information necessary to comply with FDA regulations. It is the responsibility of each CMG manufacturer to ensure that their standard operating procedures (SOP) comply with all applicable federal, state, and local regulations.

2 Scope

This publication applies to firms that engage in the filling, repackaging, transfilling, mixing, and/or re-labeling of CMG classified as drugs by the FDA and applicable state agencies. Although it is primarily intended for firms engaged in the CMG manufacturing processes, portions may apply to firms that only distribute CMG classified as drugs.

This publication is intended to address current good manufacturing practice (CGMP) requirements for:

- designated medical gases as defined in Section 575(1) of the Federal Food Drug and Cosmetic Act (Act) or combinations thereof; and
- other medical gases as defined in Section 575(2) of the Act that may be approved via a new drug application (NDA) or abbreviated new drug application (ANDA) for which the sponsor has shown through a science based risk management plan that this publication provides appropriate CGMPs [2].

Throughout this standard, the terms CMG, medical gas or medical gases are used to refer to these categories of products.

This publication does not apply to:

- bulk air separation (oxygen, USP and nitrogen, NF) manufacturing and distribution facilities;
- bulk carbon dioxide USP manufacturing and distribution facilities;
- bulk helium USP manufacturing and distribution facilities;
- bulk nitrous oxide USP manufacturing and distribution facilities;

NOTE—For information about bulk medical gases classified as drugs, See CGA M-3, *Standard for the Manufacturer of Bulk Medical Gases* [3].

- refrigerated liquid oxygen USP that is filled at a patient's residence or is filled, repackaged, transfilled, and/or relabeled by home respiratory care companies;
- medical gases classified by FDA as medical devices as defined by the Act [2]; or
- drugs that are defined as Investigational New Drug Applications, e.g., a gas or gas mixture that has never been previously used as a drug, NDAs, or ANDAs by the Act [2].

See the *United States Pharmacopeia and National Formulary (USP–NF)* for information on the USP and NF designations for medical gases [4].

NOTE—Gases such as diving gases, U.S. Occupational Safety and Health Administration (OSHA) regulated breathing air, aviator's breathing oxygen, although inhaled are not medical gases.

¹ References are shown by bracketed numbers and are listed in order of appearance in the reference section.
