

CGA M-4—2019

**GUIDELINE FOR VALIDATION  
OF MEDICAL CYLINDER  
FILLING SYSTEMS**

**SECOND EDITION**

**CGA**

**Compressed Gas Association**

*The Standard For Safety Since 1913*

**PLEASE NOTE:**

The information contained in this document was obtained from sources believed to be reliable and is based on technical information and experience currently available from members of the Compressed Gas Association, Inc. and others. However, the Association or its members, jointly or severally, make no guarantee of the results and assume no liability or responsibility in connection with the information or suggestions herein contained. Moreover, it should not be assumed that every acceptable commodity grade, test or safety procedure or method, precaution, equipment or device is contained within, or that abnormal or unusual circumstances may not warrant or suggest further requirements or additional procedure.

This document is subject to periodic review, and users are cautioned to obtain the latest edition. The Association invites comments and suggestions for consideration. In connection with such review, any such comments or suggestions will be fully reviewed by the Association after giving the party, upon request, a reasonable opportunity to be heard. Proposed changes may be submitted via the Internet at our website, [www.cganet.com](http://www.cganet.com).

This document should not be confused with federal, state, provincial, or municipal specifications or regulations; insurance requirements; or national safety codes. While the Association recommends reference to the use of this document by government agencies and others, this document is purely voluntary and not binding unless adopted by reference in regulations.

A listing of all publications, audiovisual programs, safety and technical bulletins, and safety posters is available via the Internet at our website at [www.cganet.com](http://www.cganet.com). For more information contact CGA at Phone: 703-788-2700, ext. 799. E-mail: [customerservice@cganet.com](mailto:customerservice@cganet.com).

Work Item 13-005  
Medical Gases Committee

NOTE—Technical changes from the previous edition are underlined.

NOTE—Appendices A, B, C, D, E, F, G, and H (Informative) are for information only.

<b>Contents</b>	<b>Page</b>
1 Introduction.....	1
2 Scope .....	1
3 Definitions.....	1
4 Validation overview .....	4
4.1 Validating a new or revised process.....	4
4.2 Validating an existing process.....	4
4.3 Processes that may require validation.....	4
4.4 Process flow diagrams .....	6
5 Validation approach.....	6
5.1 Risk analysis.....	6
5.2 Process control software .....	7
6 Documentation requirements .....	8
6.1 Validation master plan.....	8
6.2 Validation protocols .....	9
6.3 Validation summary report.....	9
7 Additional support documentation .....	9
8 Typical validation requirements for identified critical control points.....	9
8.1 Design qualification .....	9
8.2 Installation qualification .....	10
8.3 Operational qualification.....	10
8.4 Performance qualification.....	10
8.5 Maintenance of validation status .....	11
9 Canadian regulations and guidance.....	11
9.1 Regulations.....	11
9.2 Guidance .....	11
10 References .....	11
<b>Tables</b>	
Table 1—DQ requirements .....	9
Table 2—IQ requirements.....	10
Table 3—OQ requirements.....	10
Table 4—PQ requirements .....	11
<b>Appendices</b>	
Appendix A—Validation process flow chart (Informative).....	13
Appendix B—Typical liquid-to-gas operation (Informative).....	14
Appendix C—Typical gas-to-gas operation (Informative).....	15
Appendix D—Typical liquid-to-liquid operation (Informative).....	16
Appendix E—Typical fill process diagram (Informative).....	17
Appendix F—Failure mode and effects analysis (FMEA) (Informative).....	18
Appendix G—Hazard analysis and critical control point (HACCP) (Informative).....	42
Appendix H—Typical exception report form (Informative).....	44
<b>Appendices Tables</b>	
Table F-1—FMEA risk indexing grid .....	18
Table F-2—FMEA risk indexing grid for medical cylinder filling system process steps .....	18
Table G-1—Identifying potential CCP .....	42
Table G-2—HACCP decision tree.....	43
