

CGA P-9.5—2018

**STANDARD FOR TRANSFILLING
OF HIGH PRESSURE
GASEOUS OXYGEN USED
FOR RESPIRATION**

SEVENTH EDITION

CGA

Compressed Gas Association

The Standard For Safety Since 1913

PLEASE NOTE:

The information contained in this document was obtained from sources believed to be reliable and is based on technical information and experience currently available from members of the Compressed Gas Association, Inc. and others. However, the Association or its members, jointly or severally, make no guarantee of the results and assume no liability or responsibility in connection with the information or suggestions herein contained. Moreover, it should not be assumed that every acceptable commodity grade, test or safety procedure or method, precaution, equipment or device is contained within, or that abnormal or unusual circumstances may not warrant or suggest further requirements or additional procedure.

This document is subject to periodic review, and users are cautioned to obtain the latest edition. The Association invites comments and suggestions for consideration. In connection with such review, any such comments or suggestions will be fully reviewed by the Association after giving the party, upon request, a reasonable opportunity to be heard. Proposed changes may be submitted via the Internet at our website, www.cganet.com.

This document should not be confused with federal, state, provincial, or municipal specifications or regulations; insurance requirements; or national safety codes. While the Association recommends reference to or use of this document by government agencies and others, this document is purely voluntary and not binding unless adopted by reference in regulations.

A listing of all publications, audiovisual programs, safety and technical bulletins, and safety posters is available via the Internet at our website at www.cganet.com. For more information contact CGA. Phone: 703-788-2700, ext. 799. E-mail: customerservice@cganet.com.

Work Item 16-043
Medical Gases Committee

NOTE—Technical changes from the previous edition are underlined

SEVENTH EDITION: 2018
SIXTH EDITION: 2011
FIFTH EDITION: 2007
REAFFIRMED: 2005
FOURTH EDITION: 2000

Contents	Page
1 Introduction.....	1
2 Scope	1
3 Definitions.....	1
4 Hazards of transfilling	2
4.1 Personnel qualifications.....	2
4.2 Operating instructions.....	2
4.3 Description of gaseous and liquid oxygen	2
4.4 Some hazards of high pressure gaseous oxygen	2
5 Government regulations	3
5.1 General.....	3
5.2 U.S. regulations	3
5.3 Canadian regulations	4
5.4 State, provincial/territorial, and local ordinances	4
6 Transfilling system, equipment, and process	5
6.1 General.....	5
6.2 Transfilling system materials and oxygen compatibility.....	6
6.3 Cylinders.....	9
6.4 Cylinder valves, regulators, and pressure relief devices	10
6.5 Source of oxygen supply	12
6.6 Cylinders to be filled	12
6.7 Oxygen transfilling operation.....	13
7 Storage and maintenance of the equipment	14
8 References	14
Tables	
Table 1A—Oxygen temperature-pressure filling chart (U.S. customary units) ¹⁾	7
Table 1B—Oxygen temperature-pressure filling chart (SI units) ¹⁾	8
Figures	
Figure 1—Example of a cylinder with markings	10
Figure 2—540 valve for cylinder with straight thread (used in DOT-3AL and TC-3ALM cylinders)	11
Figure 3—540 valve for cylinder with taper thread.....	11
Figure 4—870 valve for cylinder with straight thread (used in DOT-3AL and TC-3ALM cylinders)	11
Figure 5—870 valve for cylinder with taper thread.....	12
Figure 6—Example of CGA marking system for U.S. domestic shipment of oxygen.....	13
