Legal Notice for Standards

Canadian Standards Association (CSA) standards are developed through a consensus standards development process approved by the Standards Council of Canada. This process brings together volunteers representing varied viewpoints and interests to achieve consensus and develop a standard. Although CSA administers the process and establishes rules to promote fairness in achieving consensus, it does not independently test, evaluate, or verify the content of standards.

Disclaimer and exclusion of liability

This document is provided without any representations, warranties, or conditions of any kind, express or implied, including, without limitation, implied warranties or conditions concerning this document's fitness for a particular purpose or use, its merchantability, or its non-infringement of any third party's intellectual property rights. CSA does not warrant the accuracy, completeness, or currency of any of the information published in this document. CSA makes no representations or warranties regarding this document's compliance with any applicable statute, rule, or regulation.

IN NO EVENT SHALL CSA, ITS VOLUNTEERS, MEMBERS, SUBSIDIARIES, OR AFFILIATED COMPANIES, OR THEIR EMPLOYEES, DIRECTORS, OR OFFICERS, BE LIABLE FOR ANY DIRECT, INDIRECT, OR INCIDENTAL DAMAGES, INJURY, LOSS, COSTS, OR EXPENSES, HOWSOEVER CAUSED, INCLUDING BUT NOT LIMITED TO SPECIAL OR CONSEQUENTIAL DAMAGES, LOST REVENUE, BUSINESS INTERRUPTION, LOST OR DAMAGED DATA, OR ANY OTHER COMMERCIAL OR ECONOMIC LOSS, WHETHER BASED IN CONTRACT, TORT (INCLUDING NEGLIGENCE), OR ANY OTHER THEORY OF LIABILITY, ARISING OUT OF OR RESULTING FROM ACCESS TO OR POSSESSION OR USE OF THIS DOCUMENT, EVEN IF CSA HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES, INJURY, LOSS, COSTS, OR EXPENSES.

In publishing and making this document available, CSA is not undertaking to render professional or other services for or on behalf of any person or entity or to perform any duty owed by any person or entity to another person or entity. The information in this document is directed to those who have the appropriate degree of experience to use and apply its contents, and CSA accepts no responsibility whatsoever arising in any way from any and all use of or reliance on the information contained in this document.

CSA is a private not-for-profit company that publishes voluntary standards and related documents. CSA has no power, nor does it undertake, to enforce compliance with the contents of the standards or other documents it publishes.

Intellectual property rights and ownership

As between CSA and the users of this document (whether it be in printed or electronic form), CSA is the owner, or the authorized licensee, of all works contained herein that are protected by copyright, all trade-marks (except as otherwise noted to the contrary), and all inventions and trade secrets that may be contained in this document, whether or not such inventions and trade secrets are protected by patents and applications for patents. Without limitation, the unauthorized use, modification, copying, or disclosure of this document may violate laws that protect CSA's and/or others' intellectual property and may give rise to a right in CSA and/or others to seek legal redress for such use, modification, copying, or disclosure. To the extent permitted by licence or by law, CSA reserves all intellectual property rights in this document.

Patent rights

Attention is drawn to the possibility that some of the elements of this standard may be the subject of patent rights. CSA shall not be held responsible for identifying any or all such patent rights. Users of this standard are expressly advised that determination of the validity of any such patent rights is entirely their own responsibility.

Authorized use of this document

This document is being provided by CSA for informational and non-commercial use only. The user of this document is authorized to do only the following:

If this document is in electronic form:

- load this document onto a computer for the sole purpose of reviewing it;
- search and browse this document; and
- print this document if it is in PDF format.

Limited copies of this document in print or paper form may be distributed only to persons who are authorized by CSA to have such copies, and only if this Legal Notice appears on each such copy.

In addition, users may not and may not permit others to

- alter this document in any way or remove this Legal Notice from the attached standard;
- sell this document without authorization from CSA; or
- make an electronic copy of this document.

If you do not agree with any of the terms and conditions contained in this Legal Notice, you may not load or use this document or make any copies of the contents hereof, and if you do make such copies, you are required to destroy them immediately. Use of this document constitutes your acceptance of the terms and conditions of this Legal Notice.

Technical Committee on Backflow Preventers and Water Pressure Reducing Valves vii

Preface x

B64.10-10, Selection and installation of backflow preventers

1 Scope 3

- 1.1 Application 3
- 1.2 Exclusions 3
- 1.3 Terminology 3
- 1.4 Measurement 3

2 Reference publications 3

3 Definitions, abbreviations, and symbols 4

- 3.1 Definitions 4
- 3.2 Abbreviations 9
- 3.3 Symbols 10
 - 3.3.1 Backflow preventers 10
 - 3.3.2 Vacuum breakers 11
 - 3.3.3 Other symbols 12

4 Backflow prevention methods and devices 12

- 4.1 Air gap 12
 - 4.1.1 General 12
 - 4.1.2 Hazardous installations 12
 - 4.1.3 Use 12
- 4.2 Barometric loop 13
 - 4.2.1 General 13
 - 4.2.2 Use 13
 - 4.2.3 Limitations 13
- 4.3 Mechanical backflow preventers 14
 - 4.3.1 Available types 14
 - 4.3.2 Vacuum breaker backflow preventers — General 14
 - 4.3.3 AVB devices 15
 - 4.3.4 PVB devices 16
 - 4.3.5 SRPVB devices 18
 - 4.3.6 HCVB and HCDV devices 20
 - 4.3.7 DCAP and DCAPC backflow preventers 21
 - 4.3.8 RP and RPF backflow preventers 24
 - 4.3.9 DCVA and DCVAF backflow preventers 25
 - 4.3.10 DuC and DuCF backflow preventers 27
 - 4.3.11 FV devices 27
 - 4.3.11.1 DuC backflow preventers 28
 - 4.3.11.2 DCVAF backflow preventers 29
 - 4.3.12 Backflow preventer, air space type (ASVB) 29

5 Selection of backflow preventers 30

- 5.1 General 30
- 5.2 Categories of hazards 31
- 5.3 Principal ways of providing protection 31

5.3.1	General	31
5.3.2	Individual protection	32
5.3.3	Zone protection	32
5.3.4	Premises isolation	32
5.4	Selection guide	33
5.5	Backflow from fire protection systems	34
5.6	Backflow from water fill stations	35
5.7	Backflow from temporary water services	35
5.8	Backflow from irrigation systems	36
5.8.1	Above-ground irrigation systems	36
5.8.2	In-ground irrigation systems	36
5.9	Backflow from hydronic heating systems	36
5.10	Heat exchangers	37

6 Installation requirements 37

6.1	General requirements	37
6.1.1	Accessibility	37
6.1.2	Clearances	37
6.1.3	Support and restraint	38
6.1.4	Bypasses	38
6.1.5	Field testing at installation	38
6.1.6	Installation of DCAPC backflow preventers	38
6.1.7	Flushing	39
6.1.8	Installation of a vacuum breaker, air space type	39
6.2	Sizing	39
6.3	Working pressures and temperatures	39
6.4	Shut-off valves and test cocks	39
6.5	Strainers	39
6.6	Location	40
6.7	Parallel service	40
6.8	Connections to drains	40
6.9	Thermal expansion	40
6.10	Installation orientation	41
6.11	Enclosures and protection from freezing	41

Annexes

A (informative)	— How backflow can occur	43
B (informative)	— Guide to the assessment of hazards	46
C (informative)	— Water-handling equipment and backflow devices	54
D (informative)	— Conversion tables	55
E (informative)	— Model backflow prevention bylaw	56
F (informative)	— Domestic hot water liquid to liquid heat transfer systems	61
G (informative)	— Heat-transfer fluids	63

Tables

1	— Types of backflow preventers and vacuum breakers and applicable CSA Standards	14
2	— Selection guide for backflow preventers	33
3	— Selection guide for backflow preventers for fire protection systems	35
4	— Clearances, mm	38

Figures

1	— Air gap	12
2	— Barometric loop	13
