# Preface

This is the second edition of CSA SPE 17, *HVAC guide for Part 9 homes*. It supersedes the previous edition published in 2022.

CSA Group acknowledges that the development of this Guide was made possible, in part, by the financial support of BC Hydro, FortisBC, BC Housing, and the City of Vancouver.

This Guide was authored by Ecolighten Energy Solutions (R. Pope, S. Chung, and R. Coleman) and reviewed by the Development Committee on HVAC Guide for Part 9 Homes.

**Notes:**

- 1) *Use of the singular does not exclude the plural (and vice versa) when the sense allows.*
- 2) *Although the intended primary application of this Guide is stated in its Scope, it is important to note that it remains the responsibility of the users of the Guide to judge its suitability for their particular purpose.*
- 3) *To submit a request for interpretation of this Guide, please send the following information to [inquiries@csagroup.org](mailto:inquiries@csagroup.org) and include "Request for interpretation" in the subject line:*
  - a) *define the problem, making reference to the specific clause, and, where appropriate, include an illustrative sketch;*
  - b) *provide an explanation of circumstances surrounding the actual field condition; and*
  - c) *where possible, phrase the request in such a way that a specific "yes" or "no" answer will address the issue.*

*Committee interpretations are processed in accordance with the CSA Directives and Guidelines governing standardization and are available on the Current Standards Activities page at [standardsactivities.csagroup.org](http://standardsactivities.csagroup.org).*
