**Design Guide for
Residential Street Lighting**

Publication of this Design Guide
has been approved by the IES.
Suggestions for revisions
should be directed to IES.

Prepared by:
The Sub-Committee on Residential Street Lighting

Copyright 2015 by the Illuminating Engineering Society of North America.

Approved by the IES Board of Directors, June 3, 2015, as a Transaction of the Illuminating Engineering Society of North America.

All rights reserved. No part of this publication may be reproduced in any form, in any electronic retrieval system or otherwise, without prior written permission of the IES.

Published by the Illuminating Engineering Society of North America, 120 Wall Street, New York, New York 10005.

IES Standards and Guides are developed through committee consensus and produced by the IES Office in New York. Careful attention is given to style and accuracy. If any errors are noted in this document, please forward them to the Director of Education and Technical documents, at the above address for verification and correction. The IES welcomes and urges feedback and comments.

DISCLAIMER

IES publications are developed through the consensus standards development process approved by the American National Standards Institute. This process brings together volunteers representing varied viewpoints and interests to achieve consensus on lighting recommendations. While the IES administers the process and establishes policies and procedures to promote fairness in the development of consensus, it makes no guaranty or warranty as to the accuracy or completeness of any information published herein.

The IES disclaims liability for any injury to persons or property or other damages of any nature whatsoever, whether special, indirect, consequential or compensatory, directly or indirectly resulting from the publication, use of, or reliance on this document.

In issuing and making this document available, the IES is not undertaking to render professional or other services for or on behalf of any person or entity. Nor is the IES undertaking to perform any duty owed by any person or entity to someone else. Anyone using this document should rely on his or her own independent judgment or, as appropriate, seek the advice of a competent professional in determining the exercise of reasonable care in any given circumstances.

The IES has no power, nor does it undertake, to police or enforce compliance with the contents of this document. Nor does the IES list, certify, test or inspect products, designs, or installations for compliance with this document. Any certification or statement of compliance with the requirements of this document shall not be attributable to the IES and is solely the responsibility of the certifier or maker of the statement.

Contents

1.0	Introduction	1
1.1	General	1
1.2	Scope and Goals	1
2.0	Obtrusive Light	1
2.1	Obtrusive Light or Light Pollution	2
2.1.1	Light Trespass	2
2.1.2	Sky Glow	2
2.2	Lighting Zones	2
2.2.1	Lighting Zone Definitions	2
2.2.2	How to Use Lighting Zones	3
3.0	Criteria / Design Considerations	4
4.0	Safety and Security	5
4.1	Visibility Considerations for Bikeways and Pedestrian Walkways	5
4.1.1	Illuminance	5
4.1.1.1	Horizontal	5
4.1.1.2	Vertical	5
4.1.2	Glare	5
4.1.3	Shadows and Obstructions	6
4.1.4	Color Recognition	6
4.2	Area Considerations	6
4.2.1	Streets	6
4.2.2	Sidewalks (Adjacent to Streets)	6
4.2.3	Bike Lanes	6
4.2.4	Pedestrian Walkways (Not Adjacent to Streets)	6
5.0	When Street Lighting May Not Be Needed	6
5.1	Streets with 40KPH (25 mph) Travel Speeds or Less	6
5.2	Non-compliant Pole Spacing	6
6.0	Light Sources	7
6.1	Choice of Light Source	7
6.1.1	High Pressure Sodium	7
6.1.2	Metal Halide	7
6.1.3	Induction	7
6.1.4	LED (Light Emitting Diode)	8
6.1.5	Other Sources	8

7.0 Ballasts and Control Gear	9
7.1 HID Ballast Types and Characteristics	9
7.1.1 Reactor Ballasts	9
7.1.2 High Reactance Auto-transformer Ballasts	9
7.1.3 Constant Wattage Auto-transformer (CWA) Ballasts	9
7.1.4 Constant Wattage Isolated Secondary (CWI) Ballasts	9
7.1.5 Regulated Lag Ballasts	9
7.2 LED Driver Types and Characteristics	9
7.2.1. Constant Voltage (CV)	9
7.2.2. Constant Current (CC)	9
8.0 Optics	10
9.0 Luminaire Types	10
10.0 Energy Management	10
11.0 Design Method and Verification	10
12.0 Maintenance	11
13.0 Monitoring and Control Systems	12
Bibliography	12
Glossary and Definitions	13
Annex A	18
