**IES Design Guide for Application of Luminaire Symbols
on Lighting Design Drawings**

Publication of this Design
Guide has been approved
by the IES. Suggestions for
revisions should be directed
to the IES.

Prepared by:
The Subcommittee on Luminaire Symbols
of the IES Computer Committee

Copyright 2015 by the Illuminating Engineering Society.

Approved by the IES Board of Directors, June 22, 2015, as a Transaction of the Illuminating Engineering Society.

Approved June 25, 2015 by the American National Standards Institute, Inc.

All rights reserved. No part of this publication may be reproduced in any form, in any electronic retrieval system or otherwise, without prior written permission of the IES.

Published by the Illuminating Engineering Society, 120 Wall Street, New York, New York 10005.

IES Standards and Guides are developed through committee consensus and produced by the IES Office in New York. Careful attention is given to style and accuracy. If any errors are noted in this document, please forward them to Brian Liebel, Director of Standards and Research, at bliebel@ies.org or the above address for verification and correction. The IES welcomes and urges feedback and comments.

Printed in the United States of America.

DISCLAIMER

IES publications are developed through the consensus standards development process approved by the American National Standards Institute. This process brings together volunteers representing varied viewpoints and interests to achieve consensus on lighting recommendations. While the IES administers the process and establishes policies and procedures to promote fairness in the development of consensus, it makes no guaranty or warranty as to the accuracy or completeness of any information published herein.

The IES disclaims liability for any injury to persons or property or other damages of any nature whatsoever, whether special, indirect, consequential or compensatory, directly or indirectly resulting from the publication, use of, or reliance on this document.

In issuing and making this document available, the IES is not undertaking to render professional or other services for or on behalf of any person or entity. Nor is the IES undertaking to perform any duty owed by any person or entity to someone else. Anyone using this document should rely on his or her own independent judgment or, as appropriate, seek the advice of a competent professional in determining the exercise of reasonable care in any given circumstances.

The IES has no power, nor does it undertake, to police or enforce compliance with the contents of this document. Nor does the IES list, certify, test or inspect products, designs, or installations for compliance with this document. Any certification or statement of compliance with the requirements of this document shall not be attributable to the IES and is solely the responsibility of the certifier or maker of the statement.

Foreword	1
1.0 Objective	1
2.0 Criteria	1
3.0 Application	2
3.1 Rendering Luminaire Symbols Clearly in Drawings	2
3.2 Applying Directional and Orientation Modifiers	2
3.3 Drawing Exit Signs and Emergency Luminaires	2
3.4 Drawing Electrical Symbols; Describing Mounting Height	3
4.0 Computer Representation	3
Annex A – Verbs Intended to Convey Specific Direction	7
