**IES Approved Method for
Life Testing
of Single-Based Fluorescent Lamps**

Prepared by
The Subcommittee on Photometry of Light Sources
of the IES Testing Procedures Committee.

Copyright 2014 by the Illuminating Engineering Society of North America.

Approved by the IES Board of Directors December 30, 2014, as a Transaction of the Illuminating Engineering Society of North America.

DISCLAIMER

IES publications are developed through the consensus standards development process approved by the American National Standards Institute. This process brings together volunteers representing varied viewpoints and interests to achieve consensus on lighting recommendations. While the IES administers the process and establishes policies and procedures to promote fairness in the development of consensus, it makes no guaranty or warranty as to the accuracy or completeness of any information published herein. The IES disclaims liability for any injury to persons or property or other damages of any nature whatsoever, whether special, indirect, consequential or compensatory, directly or indirectly resulting from the publication, use of, or reliance on this document.

In issuing and making this document available, the IES is not undertaking to render professional or other services for or on behalf of any person or entity. Nor is the IES undertaking to perform any duty owed by any person or entity to someone else. Anyone using this document should rely on his or her own independent judgment or, as appropriate, seek the advice of a competent professional in determining the exercise of reasonable care in any given circumstances.

The IES has no power, nor does it undertake, to police or enforce compliance with the contents of this document. Nor does the IES list, certify, test or inspect products, designs, or installations for compliance with this document. Any certification or statement of compliance with the requirements of this document shall not be attributable to the IES and is solely the responsibility of the certifier or maker of the statement.

Contents

Foreword	1
Introduction	1
1.0 Scope	2
2.0 Normative references	2
3.0 Nomenclature and Definitions	2
3.1 Lamp Failure	2
3.2 Lamp Life	2
3.3 Rated Lamp Life	2
4.0 Ambient and Physical Conditions	2
4.1 General	2
4.2 Vibration	2
4.3 Temperature	2
4.4 Air Movement	3
4.5 Operating Orientation and Lamp Spacing	3
5.0 Electrical Conditions	3
5.1. Power Supply Requirements	3
5.1.1. Input Voltage	3
5.1.2. Input Voltage Waveshape	3
5.1.3. Voltage Regulation	3
5.2. Auxiliary equipment	3
5.2.1. Integrated Ballast	3
5.2.2. Non-integrated Ballast	3
5.2.3. Starters	3
5.3. Electrical Instrumentation	3
5.4. Wiring	3
5.5. Lamp Holder Connections	3
6.0 Lamp Test Procedures	4
6.1. Lamp Selection	4
6.2. Lamp Handling	4
6.3. Lamp Marking	4
6.4. Operating Cycle	4
6.5. Recording Failure	4
7. Test Report	4
Informative References	5
