Lighting for Exterior Environments

Publication of this Recommended Practice
has been approved by IES.
Suggestions for revisions
should be directed to IES.

Prepared by:
The IES Outdoor Environmental Lighting Committee

Copyright 2014 by the Illuminating Engineering Society of North America.

Approved by the IES Board of Directors, July 30, 2014, as a Transaction of the Illuminating Engineering Society of North America.

All rights reserved. No part of this publication may be reproduced in any form, in any electronic retrieval system or otherwise, without prior written permission of the IES.

Published by the Illuminating Engineering Society of North America, 120 Wall Street, New York, New York 10005.

IES Standards and Guides are developed through committee consensus and produced by the IES Office in New York. Careful attention is given to style and accuracy. If any errors are noted in this document, please forward them to Rita Harrold, Director of Technology, at the above address for verification and correction. The IES welcomes and urges feedback and comments.

DISCLAIMER

IES publications are developed through the consensus standards development process approved by the American National Standards Institute. This process brings together volunteers representing varied viewpoints and interests to achieve consensus on lighting recommendations. While the IES administers the process and establishes policies and procedures to promote fairness in the development of consensus, it makes no guaranty or warranty as to the accuracy or completeness of any information published herein.

The IES disclaims liability for any injury to persons or property or other damages of any nature whatsoever, whether special, indirect, consequential or compensatory, directly or indirectly resulting from the publication, use of, or reliance on this document.

In issuing and making this document available, the IES is not undertaking to render professional or other services for or on behalf of any person or entity. Nor is the IES undertaking to perform any duty owed by any person or entity to someone else. Anyone using this document should rely on his or her own independent judgment or, as appropriate, seek the advice of a competent professional in determining the exercise of reasonable care in any given circumstances.

The IES has no power, nor does it undertake, to police or enforce compliance with the contents of this document. Nor does the IES list, certify, test or inspect products, designs, or installations for compliance with this document. Any certification or statement of compliance with the requirements of this document shall not be attributable to the IES and is solely the responsibility of the certifier or maker of the statement.

Contents

1.0	Introduction and Overview	1
1.1	Introduction	1
1.2	Overview	2
2.0	Outdoor Lighting Design Considerations	2
2.1	Where, When and How To Light	3
2.2	Environmental and Health Considerations	3
2.2.1	Effects of Exterior Lighting on Human Health	3
2.2.2	Animals	4
2.2.3	Plants	5
2.3	Human Vision Factors	5
2.3.1	Glare	5
2.3.2	Luminance	6
2.3.3	Visual Acuity	6
2.3.4	Visual Adaptation	6
2.3.5	Spectral Distribution and Color Rendering	7
2.3.6	Illuminance	7
2.3.6.1	Illuminance Target Value System	8
2.3.6.1.1	Recommended illuminances at design time	8
2.3.6.1.2	Recommended illuminances at occupancy time	8
2.3.6.1.3	Localized tasks	8
2.3.6.1.4	Area tasks	8
2.3.6.1.5	Tasks at uncertain locations over a large area	8
2.3.6.1.6	Multiple tasks	8
2.3.6.1.7	Visual age of occupants	9
2.3.6.1.8	Illuminance ratios in large areas	9
2.3.6.1.9	Target Foot Levels	9
2.3.6.1.10	Application Design Illuminance Recommendations – Introduction	9
2.4	Dealing With Stray Light	20
2.4.1	Light Pollution	21
2.4.2	Light Trespass	22
2.5	Lighting Zones	23
2.5.1	Lighting Zone Definitions	24
2.5.2	How to Use Lighting Zones	26
3.0	Developing a Lighting Ordinance	27
3.1	Getting Started	28
3.2	Model Lighting Ordinance Details	28
3.2.1	Purpose, Intent, and Preamble	28
3.2.2	General Regulations for All Outdoor Lighting	28
3.2.3	Establish Lighting Zones	28
3.2.4	Establish Curfews	28
3.2.5	Specific Regulations for Non-Residential Outdoor Lighting	29
3.2.6	Specific Regulations for Residential Lighting	30
3.2.7	Lighting By Special Permit Only	30
3.3	Approval Requirements	30

4.0 Community Responsive Design	31
4.1 Determine Community Lighting Goals	31
4.2 Determine a Community Theme	32
4.3 Develop a “Family” Of Luminaires	33
4.4 Consider How Luminance Ratios Impact Visibility	34
4.5 Determine How Luminaire and Sign Luminance Affects Perceptions of The Environment	34
4.6 Safety and Security Lighting	35
4.6.1 Safety Lighting	35
4.6.2 Security Lighting	36
4.7 Provide Design Guidelines	36
5.0 Exterior Features	37
5.1 Facades and Structure Lighting	37
5.2 Hardscape Lighting	38
5.3 Softscape Lighting	38
6.0 Roadway and Street Lighting	40
7.0 Walkway and Bikeway Lighting	40
8.0 Pedestrian Mall and Plaza Lighting	40
9.0 Parking Lot Lighting	41
9.1 Automobile Dealership Lighting	41
9.2 Service Station Lighting	41
10.0 Outdoor Sports Lighting	42
11.0 Outdoor Retail Lighting	42
11.1 Automobile Dealership Lighting	43
11.2 Service Station Lighting	43
12.0 Specialty Lighting	42
13.0 Selecting Light Source Systems	42
13.1 Energy Efficiency and Sustainability	43
13.1.1 Light Source System Selection	43
13.1.2 Controls	43
13.2 Maintenance Issues	43
Annex A – Glossary of Terms	44
Annex B – Luminaire Classification	46
References	47
