PURPOSE AND USE OF PROCESS INDUSTRY PRACTICES

In an effort to minimize the cost of process industry facilities, this Practice has been prepared from the technical requirements in the existing standards of major industrial users, contractors, or standards organizations. By harmonizing these technical requirements into a single set of Practices, administrative, application, and engineering costs to both the purchaser and the manufacturer should be reduced. While this Practice is expected to incorporate the majority of requirements of most users, individual applications may involve requirements that will be appended to and take precedence over this Practice. Determinations concerning fitness for purpose and particular matters or application of the Practice to particular project or engineering situations should not be made solely on information contained in these materials. The use of trade names from time to time should not be viewed as an expression of preference but rather recognized as normal usage in the trade. Other brands having the same specifications are equally correct and may be substituted for those named. All Practices or guidelines are intended to be consistent with applicable laws and regulations including OSHA requirements. To the extent these Practices or guidelines should conflict with OSHA or other applicable laws or regulations, such laws or regulations must be followed. Consult an appropriate professional before applying or acting on any material contained in or suggested by the Practice.

This Practice is subject to revision at any time.

© Process Industry Practices (PIP), Construction Industry Institute, The University of Texas at Austin, 3925 West Braker Lane (78759), Austin, Texas 78759. PIP Member Companies and Subscribers may copy this Practice for their internal use. Changes or modifications of any kind are not permitted within any PIP Practice without the express written authorization of PIP. Authorized Users may attach addenda or overlays to clearly indicate modifications or exceptions to specific sections of PIP Practices. Authorized Users may provide their clients, suppliers and contractors with copies of the Practice solely for Authorized Users' purposes. These purposes include but are not limited to the procurement process (e.g., as attachments to requests for quotation/purchase orders or requests for proposals/contracts) and preparation and issue of design engineering deliverables for use on a specific project by Authorized User's client. PIP's copyright notices must be clearly indicated and unequivocally incorporated in documents where an Authorized User desires to provide any third party with copies of the Practice.

PRINTING HISTORY

December 1997 Issued as PIP INGG1000

April 1999 Complete Revision

November 2006 Complete Revision & Renumbering

May 2008 Editorial Revision

August 2013 Editorial Revision

August 2019 Reaffirmation w/Editorial Revision

Not printed with State funds

PIP INEG2000 Guidelines for Use of Insulation Practices

Table of Contents

1. Scope	2	9.1 Summary	7
2. References	2	9.2 Practice Contents	7
Process Industry Practices	2	10. Hot Insulation Installation Details	
3. Practices Numbering System	2	(PIP INIH1000)	9
4. Electronic Entry Data Sheets	3	10.1 Summary	9
5. Application of Practices -		10.2 Practice Contents	9
Overview		11. Hot Service Insulation Materials	
6. Insulation Design Guide (PIP		and Installation Specification	
INEG1000)	5	(PIP INSH1000)	10
6.1 Summary	5	11.1 Summary	10
6.2 Practice Contents	5	11.2 Practice Contents	10
7. Acoustic Insulation Systems		12. Installation of Flexible,	
Specification (PIP INSA1000)	5	Removable/Reusable Insulation	
7.1 Summary	5	Covers for Hot Insulation Service	
7.2 Practice Contents	6	(PIP INSR1000)	12
8. Cold Insulation Installation Details		12.1 Summary	12
(PIP INIC1000)	6	12.2 Practice Contents	12
8.1 Summary	6	13. Insulation Inspection Checklist	
8.2 Practice Contents	6	(PIP INTG1000)	14
9. Cold Service Insulation Materials		13.1 Summary	14
and Installation Specification		13.2 Practice Contents	14
(PIP INSC1000)	7
