

AEROSPACE MATERIAL SPECIFICATION	AMS3940™	REV. H
	Issued 1947-07 Revised 1993-07 Reaffirmed 2022-08	
Superseding AMS3940G		
Fiberboard, Hard-Pressed, Structural		

RATIONALE

AMS3940H has been reaffirmed to comply with the SAE Five-Year Review policy.

1. SCOPE:

1.1 Form:

This specification covers hard-pressed fiberboard in the form of flat panels.

1.2 Application:

This fiberboard has been used typically for parts requiring moderate strength, such as paneling and sheathing of shipping containers, but usage is not limited to such applications.

1.3 Safety-Hazardous Materials:

While the materials, methods, applications, and processes described or referenced in this specification may involve the use of hazardous materials, this specification does not address the hazards which may be involved in such use. It is the sole responsibility of the user to ensure familiarity with the safe and proper use of any hazardous materials and to take necessary precautionary measures to ensure the health and safety of all personnel involved.

2. APPLICABLE DOCUMENTS:

The following publications form a part of this specification to the extent specified herein. The applicable issue of referenced publications shall be the issue in effect on the date of the purchase order.

2.1 ASTM Publications:

Available from ASTM, 1916 Race Street, Philadelphia, PA 19103-1187.

ASTM D 1037 Evaluating the Properties of Wood-Base Fiber and Particle Panel Materials

SAE International Standards Committee Rules provide that: "This report is published by SAE to advance the state of technical and engineering sciences. The use of this report is intended to be voluntary, and its applicability and suitability for any particular use, including any patent infringement arising therefrom, is the sole responsibility of the user."

SAE reviews each technical report at least every five years at which time it may be revised, reaffirmed, stabilized, or cancelled. SAE invites your written comments and suggestions.
